
Section 4.1.2 Sampling, line 8 to 9 reads:
The profile samples were divided into 34 samples based on lithology; GGU564517-GGU564520 and GGU564571-GGU564587.
The correct amount of samples is 21, not 34.

Section 4.3 Petrographic microscopy, end of line 3 to beginning of line 5 reads:
The microscope at the University of Oulu is fitted with a (insert name of camera and the software name).

The correct sentence is:
The microscope at the University of Oulu is fitted with a Canon G10 camera and uses corresponding Canon Utilities RemoteCapture DC v. 3.1.0.5 software.
